Summary

Computer Science undergraduate (2027) with hands-on experience in full-stack web development using MERN stack. Strong foundation in JavaScript, Node.js, and MongoDB, with experience building applications featuring authentication, real-time communication, and API integrations. Seeking internship or entry-level opportunities to apply technical skills in building impactful software solutions.

Technical Skills

Languages: JavaScript, SQL, Python
Frontend: HTML, CSS, React.js
Backend: Node.js, Express.js
Database: MongoDB
Tools & Technologies: Firebase Auth, JWT, REST APIs, WebSockets, Redux, Nodemailer, Razorpay
Concepts: Full-Stack Development, Authentication Systems, API Integration

Projects

GoRail – Train Booking Platform (goRail)

- Developed a full-stack railway ticket booking system with admin and user portals.
- Implemented features for train search, ticket booking, and Razorpay test payments.
- Built admin dashboard to manage users, trains, and bookings.
- Integrated email notifications using Nodemailer.

HealthCare (HealthcareApp)

- Built a full-stack healthcare platform enabling doctor-patient interaction.
- Implemented JWT-based authentication and secure role-based access.
- Developed features for appointment booking, profile management, and feedback system.
- Integrated a chatbot assistant to enhance user experience.
- Deployed application using modern hosting platforms.

DevTinder – Developer Networking Platform (MERN) (devTinder)

- Built a full-stack platform with real-time chat using WebSockets
- Implemented secure JWT authentication and connection system
- Managed application state using Redux
- Integrated email notifications via Nodemailer

Education

B.Tech in Computer Science & Engineering
Shri Sant Gadge Baba College of Engineering and Technology, Bhusawal
Expected Graduation: July 2027
